## NGK SPARK PLUGS AT EQUIP AUTO

NGK Spark Plugs, the leading spark plugs manufacturer, will be exhibiting at Equip Auto in Hall 6, Stand A41, where a major visitor attraction will be the Peugeot 206 – sparked by NGK – which was the winner of the 2002 World Rally Championship manufacturers title.

In Paris, NGK will be announcing important OE successes - for spark plugs, glow plugs and Lambda sensors - with leading European vehicle manufacturers. The Stand will also highlight changes in the technology of spark plugs - an area where NGK prides itself on the success achieved by its engineering expertise - and extensions to its glow plug range.

NGK is also a major supplier of Oxygen Sensors to BMW, Volkswagen and Ford and many others. The NGK Stand will have a display of Lambda sensors and other components which have put NGK at the forefront of emission controls.

*The World's No.1 Spark Plug. Fact.*
