NEW NGK SPARK PLUGS NOW AVAILABLE TO THE UK AFTERMARKET

NGK Spark Plugs (UK) Limited, the leading spark plug manufacturer, is continually announcing the introduction of new spark plug and glow plugs as they become available in stock to meet UK Aftermarket demand, the majority of which have been fitted as Original Equipment. Four additional new spark plugs have recently been announced, all of which are fitted as OE.

A new high performance Iridium spark plug for Mitsubishi models is in stock for the UK Aftermarket. LZFR6AI is designed for fitment to 2.4 litre engines on both the Mitsubishi Grandis and Outlander.

Two further spark plug additions are now available for VW / Audi models - PZFR5N-11T for fitment to the 2.0 litre FSI engines for the Audi A3 and A4, the Skoda Octavia and the VW Golf, Jetta, Passat and Touran. NGK's PFR6U-11G plugs are now also in stock for the 3.0 litre versions of the Audi A4.

NGK's ZFR5LP-13G spark plug is also now available for UK Aftermarket fitment to the 3.5 litre Chrysler 300C.

Application details for these spark plugs are contained within NGK's current spark & glow plug catalogue as well as its Part Finder PC-based parts catalogue system available on CD or via the web.
